## Sacramento Bankrupts State Monagan Tells GOP Meeting

California is financially and morally bankrupt from the attitude that has prevailed in Sacramento the past eight years according to Assemblyman Robert T. Monagan, R-Tracy.

Monagan spoke at a Republican rally for 77th Assembly District candidate Paul Sutherland last week. The rally at Hilltop Junior High School, was sponsored by 16 volunteer Republican organizations in the district.

Monagan, assembly minority leader, said Gov. Brown in his eight years in power has borrowed on future gnerations to pay for his current programs. The governor has carried his program so far he now wants to collect inheritance taxes before death, Monagan said.

"In six years in the legislature, I have never heard Gov. Brown mention concern for the taxpayers of the state," he said.

He said California is involved in a "vicious circle" of high taxes that drive business elsewhere, leading to unemployment and subsequent welfare that again leads to higher taxes "and so on around the circle again."

Monagan said Sutherland would make a worthy successor to former assemblyman Richard J. Donovan, now a municipal court judge.

"Sutherland's record as a businessman clearly indicates he can do things," he said.

'And we need successful businessmen in Sacramento because running this state is a $5 billion-a year business."

## Crime And Sea Resources Keyed In Reagan Speech

Ronald Reagan struck out at California's high crime rate, the state's casual attitude toward criminals and the spiraling cost of living in California at the GOP's $100-a-plate fund-raising banquet Friday night at Hotel del Coronado.

"Under another Brown administration $100 a plate might be a standard price," Reagan quipped.

More than 1,000 persons filled the huge Crown Room. As expected, at $100 a plate, these were staunch Reagan supporters.

Reagan's talk was unexpectedly mild for this late in the campaign, some observers said.

A key point in his speech was the proposal to develop the ocean and marine resources under a Marine Resources Board.

"The Governor does not appear to recognize that our offshore areas, like our land wilderness areas, must be preserved unsullied for future generations. In fact he had not even discovered the ocean until 1964 when the federal government showed him the way to the shore. Up to then he thought the Potomac was the nearest body of water," Reagan said.

He told the audience that Brown did not want to talk about the Rumford Act; the courts, and the University of California and crime.

Seated at the head table were most of the Republican candidates. Pat Hyndman was master of ceremonies.

## Sam Vener To Be Feted

A cocktail party will be held at the plush Cuyamaca Club in honor of 37th District Congressional candidate, Sam Vener, Friday from 5 to 8 p.m.

The public is invited to the Champagne Reception sponsored by San Diego County farmers and lumbermen. Tickets for the gala event are available from farmers and suppliers of the building industry, as well as the Vener for Congress headquarters, 1003 Plaza Boulevard, National City, telephone 477-2177.

Ed Boies and Joe Owashi, representing the sponsors said, "Vener has been a real contributor to our county's economy and has served most capably as Director of the Western Growers Association for more than five years. He has represented us most forcefully in Sacramento as well as in Washington."

"The homemaker who is concerned over the rising cost of food in today's market has a real friend in Sam Vener because he has promised to raise a real storm in Washington to help solve this situation. Sam knows you can't lower prices when production is curtailed, and he'll be heard loud and clear in Washington on this subject.

## Fire Chief Asks Traffic Relief

The directors of the Lemon Grove Fire District heard Fire Chief Pappy Hensley complain last week that the building recently erected at the southeast corner of Central and Imperial obstructed the view of his drivers, cost valuable time, and constituted a hazard to his men, his equipment and the public.

Fire engines pull out of Central Avenue, where the station is located, onto Imperial without clear view of traffic to the south. The engines must approach Imperial gingerly, losing precious seconds. Motorists traveling north are unable to see the fire equipment until it is committed to the intersection. Frequently traffic slows down for one piece of emerging equipment without drivers realizing that other pieces are immediately following.

Chief Hensley asked the board to instruct District Counsel V. J. Dorman to petition the County Supervisors for a station controlled traffic signal at the Central-Imperial intersection.

## L.G. CoC OKs Fluoridation

The Lemon Grove Chamber of Commerce Tuesday unanimously approved a move by the County Health Department to make flouridated water available to county residents.

The action was one of many expected from throughout the county that would start the machinery again by which various water agencies could introduce flourides into the water supply.

The Health Department had pointed out that the benefits of flourides has a long-lasting effect—far beyond childhood days.

### More Burden for the Homeowner

Proposition 3, the "Open Space Conservation" proposition, isn't all it's cracked up to be.

**On the face of it, it would give a tax bonus to owners who set their land for "green space" use.**

Nobody denies that there is a vital need for green space areas in various communities as suburbs fill in the open land leaving the countryside a sea of roofs.

**Passage would permit an owner to enjoy tax relief when he denies himself the profits of the property's development. For this sacrifice he would get the tax break.**

It should be noted that the proposition does not require him to open the land for public use. He has only to tag it for "scenic beauty or production of food or fibre" use.

**Richard Nevins, our district's member of the State Board of Equalization, has become exorcised by the support the Proposition is developing.**

Fearing that it will pass he warns that "passage of Prop. 3 will result in a serious erosion of local government's property tax base."

**We think Mr. Nevins has a point.**

There has been no direction land values have gone in California but up. Those who can hold onto property for a respectably long period will inevitably make a profit. The growth of many communities is thwarted by wealthy landowners holding undeveloped property until profit accrues to the maximum. Then he sells without regard for what effect the sale will have on proper development of the community. The new owners then develop it for the fastest buck—and the sea of roofs result.

**All of this is fine. It's good, old-fashioned American enterprise to invest money in land and reap the profit reward.**

But encouraging these guys to hold it off the market until they're ready to cash in the profit by shifting the tax burden to other homeowners isn't right, either.

**If the "Open Space" idea is so fine, the State could pay a fair price for the property—probably as much as the state would have received in taxes in 20 years, and the property could go to the people in perpetuity.**

That makes sense!

**Giving a tax break so that the owner can get a tax saving and generate profit, too, appears to be a sort of poverty program for the landed gentry.**

### Bureaus Are Creeping Again

The food and Drug Administration is giving the American public a "bitter pill" come December, we are told.

**The "medication" will be in the form of saving Americans from themselves.**

Precisely what all this is about is that FDA will limit the amount of vitamins that can be bought over the counter.

**To FDA's singularly simple way of thinking the "average" person on an "ordinary" diet receives enough vitamins and minerals. Any taken in addition to that is superfluous, according to FDA.**

So on December 14 they are "prescriptionizing" the vitamin industry. The amount purchasable without a prescription after that date will be strictly limited.

**FDA, it should be noted, does not imply that vitamin or mineral supplements are harmful. It justifies the order by claiming that they are "unnecessary."**

It has the pill people complaining that the Food and Drug Administration makes its own laws without benefit of balloting by electing representatives. What's more, they say, the issue never get to the polls. Any attempt to test these edicts in the courts produce findings for the bureaus.

**So what's new?**

Do the vitamin people really want to know about Bureaus, Commissions, Departments and Agencies? Let them look to California, the most populous state in its nation.

**It's latest roster of State officials shows 65 pages of Bureaus—in California alone. Pages 24 to 98 inclusive. And let no one tell them that any of these agencies operate any other way than FDA. These guys make rules, and they enforce 'em. When a poor soul runs afoul of these rulings, he faces the department's own district attorney, the department's trial judge, the department's jury and the department's probation department.**

Of course, there's another step. Appeal! Who do you appeal to?

"When you contribute to the United Community Services' 1966 United Crusade, your money returns home, more than doubled, in services to Lemon Grove-Spring Valley residents." This statement was made in a recent interview with Alex Woods, local United Crusade chairman.

"A conservative estimate on the amount of United Community Services' dollars spent in direct service to residents in comparison to quota dollars raised is: $54,300 in services and a $6,700 quota," he said.

The daughter of a Lemon Grove couple has arrived in Nairobi, Kenya, to serve with the Peace Corps.

Mrs. Kay Mehren and her husband Peter reached the African city Sept. 28 to begin a two-year term with the United States organization.

Mrs. Mehren is the daughter of Mr. and Mrs. Edmond C. Gullikson, 1313 Lincoln Pl., Lemon Grove. Peter is the son of Mr. and Mrs. George L. Mehren of Washington, D.C.

Kay Mehren graduated from Mount Miguel High School in 1959 and earned her B.S. degree in veterinary medicine from the University of California Davis campus in 1965. Her husband has a B.A. degree in history from the same institution.

The Mehrens are two of 36 volunteers trained in Milwaukee this past summer to supplement efforts of Peace Corps volunteers now working with Kenya's land settlement program. The group will work in the Kenyan Highlands with new farm settlers.

They will serve primarily as agricultural and techinal assistants and co-ordinators and administrators in the massive government plan which involves about one million acres and 35,000 new steelers.

During their training at the University of Wisconsin, the new volunteers studied Swanili, Kenyan history and culture and U.S. history and world affairs. Their technical studies emphasized general community development theory, agricultural extension methods and administrative tasks involved with land resettlement.

Last week's speaker Assemblyman Clair Burgener R-76th District), a candidate for the newly created 38th State Senatorial District, gave a preview of the 1967 State Legislature.

### New Governor

"Jan 9 will be an important day. At 12 noon we will inaugurate a new legislature and a new governor. Whomever they are, they will face the same problems—tax reform, budget defecits and inadequate support of the schools from the state level", Burgener said.

"There will be immense changes in the legislature. This year it is different because of re-apportionment (the one man one vote policy). All 40 senators will be running at the same time. Half of the senators will be elected for four-year terms and the other half for two-year terms.

"The Senate will show a shift of power from the rural North

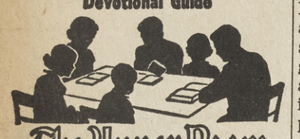
The World's Most Widely Used Devotional Guide



The Upper Room

THE UPPER ROOM, NASHVILLE, TENNESSEE

**Read Ephesians 5:15-21**

Be strong in the Lord and in the strength of his might. (Ephesians 6:10, RSV)

During the "open hearts" hour at the beginning of a youth camp, many young people expressed their uncertainties and weaknesses, feeling they did not have enough faith. As the days went by, we counselors felt that Jesus was challenging them to achieve a victorious life.

At the last service around the camp fire, each person told of his experiences during the week. Many expressed victories. Some had discovered how to forgive offenses. Others told of new strength for their lives.

Someone rose and asked that all pray for the young person whom he invited to stand beside him. This young person, with the same invitation, then asked that they all pray for another young person in the group. Thus they moved around the circle, with each person praying for the others. This formed a circle of love in Christ Jesus.

On the way home, they sang and made plans to influence other young people to have the same experience of faith, prayer, and victory in their lives.

**Prayer:** O God, we beseech Thee to blot out our sins and prepare us for growth in Christ-likeness. Grant us victories of the spirit. Teach us to pray for others. Strengthen us as we spend ourselves serving Thee. For Jesus' sake. Amen.

**Thought for the day:** In Christ our lives attain vital victories.

Love is patient and kind; love is not jealous or boastful; it is not arrogant or rude. Love does not insist on its own way; it is not irritable or resentful; it does not rejoice at wrong but rejoices in the right. Love bears all things, believes all things, hopes all things, endures all things.

Love never ends; as for prophecy, it will pass away; as for tongues, they will cease; as for knowledge, it will pass away. For our knowledge is imperfect and our prophecy is imperfect; butwhen the perfect comes, the imperfect will pass away. I Corinthians 13:4

## Sid Gillman To Head Home Of Guiding Hands Campaign Committee

Chairmanship of the Campaign Committee for 1966-67 for the Home of Guiding Hands has been accepted by Sid Gillman, coach and general manager of the San Diego Chargers. The announcement was made by Ray Wilson, president of the Home's Board of Directors.

Sid Gillman

Gillman will head a volunteer committee of selected business and professional leaders throughout Southern California who will conduct the first annual campaign to provide operating funds for the new facility for the mentally retarded.

The Home of Guiding Hands, a residential facility for retarded children near Lakeside, is scheduled for completion next April. The total cost of this, the first phase of the project, is $2,176,793. Federal and State grants amounted to $625,669 each with the remaining amount of $925,455 being supplied by the Lutheran Association for Retarded Children.

"During the next year," Gillman said, "the Home will need $125,000 to underwrite operating costs and an additional $200,000 for mortgage reduction and interest payment. Elimination of the present $700,000 mortgage would effect a reduction in the monthly rates for those residing in the Home."

The facility will be open to any mentally retarded individuals in Southern California three years of age or older and, at the time of opening, will accommodate 192 residents. Professional staff will seek to develop each individual to his full potential through close personal attention and highly specialized training.

**Power Shift**

As an example of the shift of power, Burgener told of Los Angeles County moving from one senator to 14½ (sharing one seat with another county).

Burgener also predicted "the Highway formula fund will be revised to benefit Southern California.

Speaking of the Republican party, Burgener said, "I think my party is a little sick. It sure is outnumbered. I am interested in picking up representation for my party.

"At present there are only 13 Republicans in the state Senate. I predict there will be 17 as opposed to 23 Democrats after the coming election.

**Little Change**

"I don't predict much change in the Assembly. The Democrats lead presently 49-31, The Assembly has traditionally been a jungle of partisan battles. It is quieter in the Senate.

Burgener also told the Men's Club there is a serious deteriation of the legislative branch of government.

"The most serious threat to our system is the weakening of of the legislative branch and a strengthening of the judicial and executive branches of our government. It is not in the public's interest.

"If we allow our legislative branch to deteriorate, it will become less responsive to the people. The strong judicial branch is legislating today", Burgener added.

## Monte Vista Harriers Rip Grossmont, 15-50

As expected, Monte Vista High's cross-country team swept to an easy 15-50 victory over Grossmont High last Friday in the first Grossmont League encounter for both teams.

At the same time Mt. Miguel was losing to Helix's Highlanders, 23-38.

The Monarch's Don Olsen set a new course record at Grossmont, timing 9:07 to snap the old mark of 9:09.

Olsen's teammates captured eight of the next nine places. Dave Matheny, Dave Carter, Danny Ungricht, Rodney Stephens, Brent Wilson, Mark Clark and Danny Matheny finished second through eighth and Dale Olsen took a tenth.

The jayvees also compiled a perfect score, toppling the Hiller junior varsity, 15-50.

Bill Drummond was the top Mt. Miguel finisher in the Matadors loss. He was nosed out for first by Schroder of Helix. Both had times of 9:40 in the meet at Mt. Miguel.

The Matador jayvees lost 24-30 and the freshmen won, 28-29.

# THE WEEK IN SPORTS

## Matadors Rout Devils, 50-20

by Ben Sele

The two area prep grid clubs, Mount Miguel and Monte Vista highs, will begin the 1966 Grossmont League wars Friday night against two of that loop's strongest entries.

Mount Miguel, an impressive 50-20 winner over Sweetwater's Red Devils in its non-league opener last week, will battle the Helix Highlanders, pre-season favorites for the league title, in the Claymore Trophy traditional. Helix downed Eastern League threat Hoover, 28-20.

The Monte Vista Monarchs will test Grossmont High in Helix Stadium. The Monarchs were beaten, 18-12, by Mission Bay while Grossmont High was turning back Kearny of the Western League, 26-0.

**Slow Start**

The Matadors started slowly against the Sweeties, holding a narrow 12-6 lead at halftime. Jerry Lowery's 10-yard run and Frank Gilbert's 75-yard punt return provided the Matador points.

In the second half Mt. Miguel intercepted three passes, recovered two onside kickoffs and hit paydirt five times to turn the game into a rout.

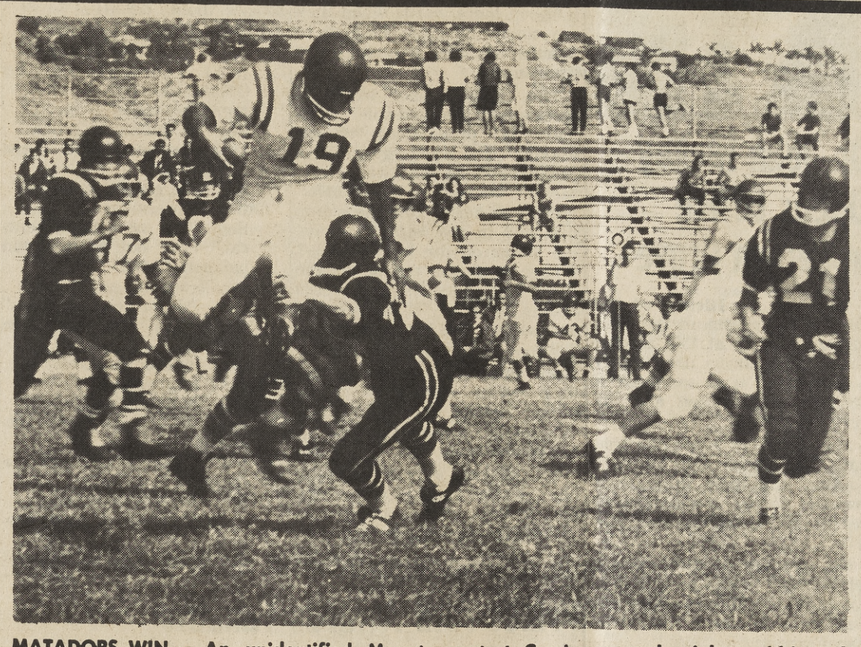
Jim Murguia hauled in a 10-yard pass from quarterback Lowery, Gilbert scored from the 26, Gary Gamet tallied on a 32-yard run and Bruce Johnson ran 33-yards and took a 10-yard pass from Lowery for two scores.

**Passing Attack**

In Helix the Matadors will be meeting a team that relies on a good passing attack. Highlander quarterback Rick Edwards tossed three TD's against Hoover last Friday night. The batle for the Claymore Trophy will take place at 8 p.m. in Mt. Miguel Stadium.

Monte Vista was tied with Mission Bay, 6-6, at the half, but fell behind in the third period, 12-6, and gave up the eventual winning touchdown in the fourth before countering with a score of its own.

The Monarch touchdowns came on a 10-yard run by quarterback Chuck Downing and a one-yard plunge by Phil Duncan.



MATADORS WIN — An unidentified Mount Miguel High junior varsity gridder upended this Sweetwater jayvee ballcarrier in the opening quarter of last Friday's afternoon contest. Coming up at the right to aid in making the stop is safety Charles Gregg. The Matador jayvees whipped the Devils, 32-12.

## Unbeaten San Diegans Face New York Jets

San Diego's high-flying Chargers collide with Joe the Jet Saturday night.

A capacity crowd of 60,000 is expected at Shea Stadium to cheer Joe Namath and the New York Jets against Lance Alworth and the big bombers from the West Coast.

The game between the American Football League's only unbeaten teams will be broadcast over KFMB and the Charger network by Lyle Bond and Emil Karas starting at 5 p.m. (PDT). There is no television.

Embarking on a three-game swing of the East, San Diego (4-0) anticipates nothing but trouble from New York (3-0-1), a team which the Charges whipped last season by scores of 34-9 and 38-7.

**Best Ever**

"This is the best Jet team we've ever faced, by far," said San Diego coach Sid Gillman. "They've got offense, defense, quarterbacking, running, everything."

San Diego has been somewhat of a mystery team. After a 27-7 victory over Buffalo, the Chargers have not been impressive while still winning comfortably over Boston, 24-0; Oakland, 29-20, and Miami, 44-10. Big plays on offense and outstanding work by the defensive secondary have been the keys to Charges success.

Only Alworth of the touted "Hall of Flame" backfield (John Hadl, Alworth, Paul Lowe, Keith Lincoln) has accomplished any blazing thus far.

It took a sensational performance by quarterback Steve Tensi, seeing major action for the first time as a pro, to avert an upset against underrated Miami last Sunday. The 6-foot-5 sharpshooter from Florida State completed 9 of 12 passes for 223 yards and four touchdowns in the second half after the Dolphins led at halftime, 10-6.

Alworth and fullback Gene Foster each caught six passes, two apiece for touchdowns. The New York Football Writers "Player of the Year" in 1965, Alworth has 18 receptions for 312 yards and four touchdowns this season. Bambi has made the big play for the Chargers in every game.

**QB's Compete**

The identity of San Diego's backfield is another mystery. Gilman has shuttled his four running backs—Lowe, Foster, Lincoln and Jim Allison—and Saturday night is faced with a quarterback decision between Hadl and Tensi.

Namath will be firing into a Charger defense which has allowed opponents only a .341 pass completion average and two aerial touchdowns. San Diego's version of the Dynamic Duo, Speedy Duncan and Kenny Graham, have spearheaded the swift secondary.

On New York's last visit to San Diego (Dec. 4, 1965) Joe the Jet was treated like a Piper Cub as the Chargers intercepted four of his passes before a national television audience.

Jet coach Weeb Ewbank this year has put together a crack defensive platoon pacel by 270-pound end Vernon Biggs, linebacker Larry Grantham and NFL castoff Johnny Sample, who is being billed in New York as the top pass defender in the AFL. Alworth will sample his qualifications Saturday night.

**Dance Classes**

The La Mesa Recreation-Park Department has announced the formation of square dance classes for seniors under the direction of Lee Waddell.

The classes are held each Tuesday from 2-4 p.m. at the La Mesa Adult Center, 8450 La Mesa Blvd., La Mesa. The classes are free of charge. Waddell is known for his work with the blind, the deaf mutes and the Wheel-a-Cade.

## Cal Western Debut Set Saturday Against Cal Poly

"Where Strong Legs Will Run That Weak Legs May Walk" is the theme that sets the stage for an intercollegiate football game between California Western University and Cal Poly of San Luis Obispo Saturday night at 8 o'clock.

Balboa Stadium is the site of the Benefit game for the Shriners Hospital for Crippled Children with pageantry getting under way at 7:30.

The festive evening will serve as Cal Western's debut as compared to the fourth game of the season for the Mustangs of Cal Poly.

New Cal Western coach Bob Dinaberg is pleased with the progress of the Westerners, particularly with the quarterback position which is three-deep with Erik Widmark, Rick Johnson and Mike Rhodes.

The end position seems well fortified with outside receivers Pete Werhanowicz, Bob Garcia and sprinter Charles Ward, as well as strong ends Marshall Cochrane and Frank Vaughan, drawing praise from Dinaberg and his staff.

Tackles Gordon Newton and Leonard DeSanti, guards Bob Bishop and Ron Begley and center Ken Campbell give the Westerners good front line strength blocking for the likes of halfback Jackman LeBlanc and fullbacks Jim Spellman and versatile Crist Pomajevich.

Due to the Westerners' lack of depth, many players will see double duty on defense with Werhanowicz, Bishop, DeSanti-Cochrane, Begley, Spellman, Pomajevich and LeBlanc likely 60-minute candidates.

"We're going to provide good football, that I know," promises Dinaberg. "These kids have so much desire and such good attitudes that I don't see how we can miss. Plus, the Shrine game, being such a wonderful cause, has everybody 10 feet tall."

## San Diego To Host National Table Tennis Championships

San Diego will host its first national championships in the internationally-played and universally popular sport of table tennis next spring, according to a joint announcement of the U. S. Table Tennis Association and the San Diego Table Tennis Association.

The 37th annual U. S. Table Tennis Association National Open Championships will be held on March 31 and April 1-2 of 1967 at Balboa Park Gym and the Federal Building annex. The event will be conducted by the San Diego TTA in cooperation with the San Diego Recreation Department under sanction of the USTTA.

Divisions of play will be men's and women's singles and doubles, junior men's singles and doubles, junior miss singles, boys, midget, senior and doubles and junior mixed doubles. There will be consolation flights in all events.

U.S. Grant attended school at Maysville, Ky.

# Three Miguel Seniors Named Semi-finalists In NMS Contest

By Adele Paterson

Three Mount Miguel High School seniors have been named semi-finalists in the 1966-67 National Merit Scholarship competition.

They are Randy King, son of Mrs. Dorothy King of 1941 Fairhaven St., Lemon Grove; Ann Tibbetts, daughter of Mr. and Mrs. Broyce Tibbetts of 3381 Par Dr., La Mesa; and Ai Woodward, son of Mr. and Mrs. Melvin Woodward of 7601 Circle Dr., Lemon Grove.

These students were among the top twenty percent of their senior class who were selected to take the National Merit Scholarship Qualifying Test last March. Over 17,500 high schools across the nation participated in the competition.

The semi-finalists are now eligible to become finalists and merit scholars if they score well on the SAT, another test to be administered soon.

Each finalist receives a Certificate of Merit and may possibly be the recipient of a variety of scholarships sponsored by the NMSC.

Letters of Commendation will be presented to other Mount Miguel seniors who scored high on the National Merit test. They are Jacqueline Leatherman, Douglas B. McCalla, Daniel W. Panhorst, Michael Wilhite, Linda Minor and Gwen McGarrey.

*Learn Spanish The Easy Way*

# Hardison's Telespanish

by James Hardison

English has many words that are simular to Spanish words in their written form. Words like "piano, animal, general, and actor" are spelled the same way in Spanish as they are in English, The basic difference between these words when they are converted from English to Spanish is the way they are pronounced.

The word "piano" would be pronounced "pee-AH-noh." "Animal" is pronounced "ah-nee-mAHL." The word "general" is pronounced 'he-neh-RAHL," and "actor" would be "ahk-TOHR."

Did you notice how the words that end in the letter "l" have the stress on the last syllable? Where was the stress on the word that ended in "r?" Words ending in "l" or "r" are usually stressed on the last syllable.

Where was the stress on the word "piano?" You will notice that words ending in "o" or other vowels like "a", "e", or "i" usually stress the next to last syllable.

Expressions appearing in today's lesson use the words "piano, animal, actor, and general." Read them over and then dial 276-2762 on your telephone where you may practice saying them with the two minute record. A pause is provided on the record in which readers are invited to say each of the words and expressions aloud after they have heard the record pronounce them. Try it!

Important Expressions:

Say "El piano es grande." (e h l pee-AH-noh e h s GRAHN-deh)

for "The piano is large."

Say "El animal es chico." (ehl ah-nee-MAHL ehs CHEE-koh)

for "The animal is small."

Other Expressions:

Say "Yo no soy un general." (yoh noh SOH-ee oon heh-neh-RAHL)

for "I am not a general."

Say "Juan es un actor." (who-AHN ehs oon ahk-TOHR)

for "John is an actor."

Travel Expressions:

Say "A donde va useed?" (ah DOHN-deh vah oo-STEHD)

for "Where are you going?"

Say "Yo voy a Mexico." (yoh VOH-ee ah MEH-hee-koh)

for "I am going to Mexico."

# Politics In Brief

RICHARD NEVINS

Proposition no. 1 on the November ballot is a "must measure for our modern state" according to Richard Nevins, a member of the State Board of Equalization.

Nevins, who represents southern California on the five-member Board, said Proposition no. 1 would modernize investment practices of public employee retirement systems to the benefit of both the public and the employees.

The measure would permit selective investment of public retirement funds in common stocks on a restricted basis.

ROBERT FINCH

Support for a proposal to allow tuition charges up to $100 per school year for the California State Colleges and the University of California was voiced by Robert H. Finch, Republican nominee for Lieutenant Governor.

Finch's view that a modest tuition fee would provide funds for student scholarships, grants and loans was made public in a letter to Assemblyman Charles B. Garrigus (D-Reedly), chairman of the Assembly Sub-Committee on Higher Education.

"I support the principle that no California student shall be denied the opportunity to attain a college education because of financial need. I believe that the present system is not effectuating that policy," Finch declared, and added that he agrees with Chairman Garrigus that we can no longer scoff at the idea of a tuition charge.

"Those of us who do not come from well-to-do families and who therefore had to work our way through college, know that the greatest deterrent to poorer students attending college is not a small tuition or incidenal fee but the costs of food, shelter, clothing and textbooks, he said.

SEN. KUCHEL

Suspension of industry tax credits for equipment purchases and accelerated plant depreciation proposed by President Johnson as anti-inflation steps drew sharp criticism today from U. S. Senator Thomas H. Kuchel of California.

The Senate Assistant Republican Leader, acknowledging his State has been especially hurt by rising prices and interest rates, voiced alarm in a Senate speech that the suggested "temporary" moves to restore the Nation's economy balance threaten to cause substantial unemployment and operating cutbacks which may bring "economic disaster" for certain States.

TAXES

"Tax exempt property already on tax rolls is costing local governments $144 million each year. Our cities and counties simply cannot afford further erosion of the property tax base", Richard Nevins, Southern California member of the Board of Equalization, warned the California Grocers' Association's annual convention of the dangers of Proposition 3 on the November ballot. The measure provides for the lowering of taxes for special groups disguised as "open space conservators", according to the tax official.

Addressing the luncheon meeting in San Diego Convention Hall, Nevins released figures indicating exemptions currently provided by California law total approximately $1.63 billion including $665 million for property held by the state's qualifying veterans, $334 million by churches, $165 million by colleges, and $466 million in welfare exemptions (includes certain schools, hospitals, and religious organizations). Based on an average combined tax rate of $9 per $100 in assessed valuation, tax loss to local government would approximate $144 million.

Countywide exemption figures are: Total assessed valuation $113,956, veterans $56,621, churches $20,463, colleges $5,669 and welfare $31,203.

"These exemptions are of long standing and do not serve to undermine the fiscal planning of local government", Nevins continued, "but special treatment for 'open space conservation' can only lend encouragement to other groups seeking preferential tax assessment levels. The end result will be a shift in the property tax base and the average home owner and business taxpayer will be paying someone else's taxes."

The featured attraction will be the battle between El Cajon's Vance Butler and San Diego's Russ Bullen in the point standings contest. Butler has a 12-point lead over Bullen in the race for the points championship, 4,436-4,424. It is the tightest point race in the track's history.

Jim Hitt of Lemon Grove, a two-time main event winner, is in third place at 3,762. Only two programs remain.

Qualifying will start at 6:30 p.m. with the trophy dash starting at 8:15 to begin regular competition.

The official board meeting and quarterly conference is scheduled for Wednesday, Oct. 12 at 7:30 p.m.

An alcoholic beverage made of fermented honey and water is known as mead.

# Prizes And Awards Taxable Says Internal Revenue

Prizes and awards are generally taxable and the fair market value must be included in gross income on tax returns, Robert A. Riddell, District Director of Internal Revenue reminded taxpayers today.

Examples of prizes and awards which are reportable include items received from radio and television "give-away" shows, contests, door prizes, raffles, lotteries and sweepstakes, and merchandising "bonuses".

Shares of stocks, building lots, merchandise, and vacation trips to luxury resort areas received by employees, salesmen, dealers, corporation officers and others are taxable too. These awards are usually received in connection with sales contests and promotion programs.

Fair Value

Riddell emphasized that the fair market value of the trips, services, or merchandise received is the amount to be included as taxable income. This applies even if the recipient disposes of such items by gift or otherwise. "However, where a taxpayer does not accept an award, its value does not have to be included in taxable income," Mr. Riddell stated.

Although taxpayers are generally aware that cash awards are taxable, Internal Revenue is becoming concerned over misunderstanding by taxpayers who have received non-cash incentive awards and who have either omitted or understated their value for Federal income tax purposes.

File Returns

Riddell said an enforcement program designed to increase taxpayer compliance in the prize award area is already in effect. "Any individual, business, or organization sponsoring contests or sporting events and making payments of prizes or awards totaling $600 or more must file an annual information return on Form 1099," Mr. Riddell pointed out.

Sponsors desiring further information about the reporting requirements should contact the Internal Revenue Service for Document No. 5572, "Information Reporting Requirements of Sponsors of Contest or Sporting Events."

# Adult Class On Sewing Machines Meets Wednesdays At Mt. Miguel

A special adult class on zig-zag sewing machine operation meets Wednesday evenings at Mt. Miguel High School.

The course is taught by Mary Ward Tyler and is designed to help students realize the full potential of sewing with a zig-zag machine. The adults attending this course will learn the difficult and fancy stitching that is possible on zig-zags.

Students who own portable machines bring them each class night. Local distributors have supplied several machines for teacher demonstration and student use in the classroom.

Class is held from 7-10 p.m. in room 562. Anyone interested may enroll at the classroom. Enrollment fee is $1 for the school semester. For further information about this or other adult classes call the Mt. Miguel Adult office at 469-6169.

How much safety do you want for your money?

Financial safety comes in all shapes and sizes. There are safe investments and risky investments—and ones that are in between. Depending upon how much risk you want to take, your money can be invested in a variety of ways.

Your savings, however, are another thing. This is money you do not want to *risk*—no matter how safe the investment appears. This is money you want to be able to count on at all times and under all conditions. And when you want your money that safe and that available—*you want it in the bank.*

## Good Students Get Insurance Break

State Farm Mutual's "Good Students Discount Plan" is proof that better grades and better driving go hand in hand, according to Jim Boyd, local representative.

A full-time high school student can qualify for a 20% discount on his insurance bill if he ranks among the top 20% in his class.

He may also qualify if he has a "B" average or better or if he is on the Dean's List.

Boyd said Good Student drivers average 348 car damage claims a year per thousand against 498 for others.

Syria is at the eastern end of the Mediterrean Sea.
